

Example vaccination combinations that meet the 2009 MCA / MSU Graded Feeder Calf Sale Requirements

There is a change in the vaccination availability this year. Vista Once SQ will not be available this fall. This may require you to use three products each time you vaccinate. Easy Weaning and Post-weaning combination vaccines are listed below. These combinations allow for two shots to be given each time through the chute. Remember to purchase enough vaccine for two doses/calf.

- | | | |
|----|--|--|
| 1. | Titanium 5
Once PMH SQ
Vision 7 + Somnus | AgriLabs
Intervet
Intervet |
| 2. | Bovi-Shield Gold 5
One Shot
Ultrabac 7/Somubac | Pfizer
Pfizer or Pulmo-guard PH-M
Pfizer Boehringer Ingelheim |
| 3. | Express 5-PHM
Barvac- 7/Somubac | Boehringer Ingelheim
Boehringer Ingelheim or Vision 7 + Somubac |
| 4. | Pyramid 5 + Presponse SQ
Vision 7 + Somnus | Fort Dodge
Intervet or Ultrabac 7/Somubac Pfizer |

NOTE: These are only example vaccine combinations. If you are using a pre-weaning program for your first dose, you will need to purchase three products for the first vaccination and can use a combination as listed above for your second vaccination. Refer to sale requirements for more details or call Kevin Gould (616) 527-5357 if you have any vaccination questions.
